Connect branch office phones to a PBX over the Internet...**for FREE!**

Patton's SmartNode VoIP Media Gateways enables any telephone, FAX, or PBX to seamlessly use the Internet to make toll-quality calls without paying a dime.

Delivering toll-quality voice end-to-end while managing your outbound data, the SmartNode is a complete H.323 gateway. QoS routing ensures that your data gets through for the best quality call. Patton's exclusive Telephony-over-IP™ (ToIP) Session Router provides programmable call-by-call PBX functions such as call routing, call filtering, and time-of-day processing.

We put our money where our mouth is—**on the network!** We *know* you can get toll-quality voice over the Internet, using our improved VoIP technology. We *know* that you **will save money** by making FREE telephone calls between your branch offices or remote locations, that's why we are offering you our **TALK IS CHEAP GUARANTEE**.

- ✓ Supports office, branch, and trunk communications for both voice & fax over IP.
- ✓ Guaranteed toll-quality voice using enhanced VoIP & QoS technology.
- ✓ Eliminates all long distance charges between locations.
- ✓ Pays for itself quickly while saving you money every month.
- ✓ Easy to configure using our templates or we'll preconfigure your units for you!
- ✓ 60-day, no-hassle **TALK IS CHEAP MONEY-BACK GUARANTEE**.

Talk is cheap Guarantee

Connect two phones or phone systems over the Internet or VPN using *any* Patton SmartNode VoIP Gateway...and if you are not **TOTALLY SATISFIED**, send it back within 60 days for a full credit or refund.
