# RAS

Our dial-up remote access servers terminate up to 120 analog (V.90, V.34+, K56Flex) and digital (ISDN) modem calls from T1/E1 or PRI lines. PATTON's RAS is driving the price-per-port to new record lows for ISPs, carriers, and corporate customers. Learn more about our RAS products—and enter our drawing for a free RAS—at [ras.patton.com](http://ras.patton.com)

WE'RE GIVING AWAY ONE FREE REMOTE ACCESS SERVER EVERY MONTH AT [ras.patton.com](http://ras.patton.com)

# CONNECTIVITY

PATTON is your source for the widest range of connectivity solutions from G.703 baluns to RS-485 converters. We've been in the datacom accessory business for more than 15 years. Get the connection you need at [access.patton.com](http://access.patton.com).
