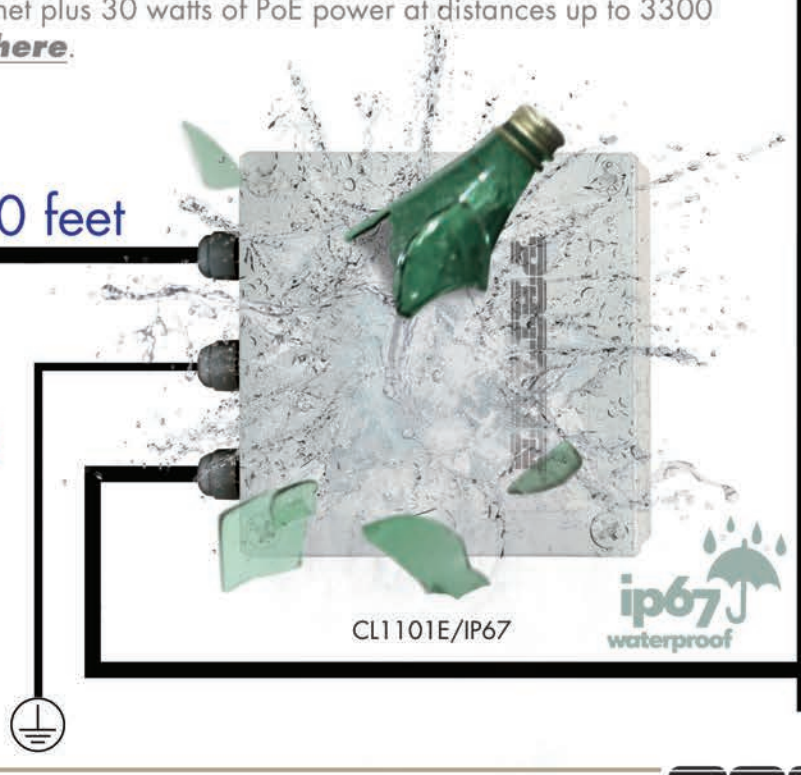
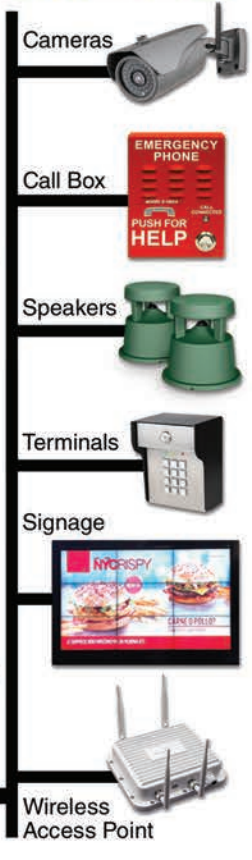
Power-Up & Connect Outdoor End-Points

Waterproof, Shockproof, Dustproof Ethernet Extender with PoE Power

There is no longer any need to run separate AC or DC power to remote or outdoor IP phones, speakers, cameras, access points, digital signs or IoT gateways. With just 2 wires, Patton delivers totally secure IP Ethernet plus 30 watts of PoE power at distances up to 3300 feet. Now *that* is a **BIG savings** letting you deliver digital solutions ***anywhere***.

3300 feet





...Anywhere

- Transparently pass Ethernet traffic over 1 to 4 twisted pairs or coax
- Support legacy & 803.af PoE modes
- Plug-and-Play…Set-and-Forget
- Options for -10 to 70 °C operation & IP67-level protection

- IP Telephony
- Security & Surveillance
- SCADA
- Wireless Access & Extension
- Digital Signage
- Subsea Exploration

Made in Maryland USA
